REPORT/ACCESSION NUMBER INDEX

Listing of Report Numbers

To the right of each report number is the NASA accession number, followed by an asterisk if the report is NASA sponsored (See Introduction for availability information). Following the accession number is a four digit number for locating the abstract: the first two digits identify the issue of *STAR*, and the two digits after the hyphen identify the category as listed in the Table of Contents.

ACCESSION/REPORT NUMBER INDEX

Listing of Accession Numbers

This list of NASA accession numbers may be used to locate the subject category in which a specific abstract appears in this journal, as well as to identify the accessioned report. Accession numbers are arranged in ascending order, followed by an asterisk if the report is NASA sponsored (See Introduction for availability information). To the immediate right of each accession number is a four digit number for locating the abstract; the first two digits identify the issue of *STAR*, and the two digits after the hyphen identify the category as listed in the Table of Contents. Report numbers are given for cross-reference purposes at the right side of each column.
